

INSTITUT FÜR DEUTSCHE TATTOO-GESCHICHTE e.V.

The Institute for German Tattoo History (Institut für deutsche Tattoo-Geschichte e.V., IDTG) was founded in 2018.

The purpose of the non-profit organisation is to promote research, art and culture, as well as education and public discourse regarding tattooing. Acknowledging that an interdisciplinary approach to tattoo-related research is indispensable, experts and researchers from various academic disciplines will be assisted and supported in their work.

This statutory public purpose is realised by facilitating academic events and research projects focused on German tattoo history and its international context. The results of such activities will be easily made available to the public through publications or other media.
